

## OUTDOOR WEATHER SIRENS:

Madison County has successfully installed and activated three outdoor weather sirens within the county. The locations are listed below. These sirens will be activated in the event that a tornado warning has been issued for our county; however, we will conduct monthly testing on each siren. The testing is scheduled for the first Monday of each month at 12:00 p.m. The testing process is a necessary measure to help ensure that the equipment is working properly and to its maximum capacity.

### Siren Locations:
