## **WASTE MANAGEMENT IS SEEING HIGH VOLUMES OF GARBAGE ON COLLECTION ROUTES IN CENTRAL MISSISSIPPI**

**Jackson, Miss. – Feb. 22, 2021** – Waste Management resumed regularly scheduled collection services to our valued customers, today, February 22. Waste Management is experiencing high volumes of garbage and trash along all routes, which may precipitate some delays in service. Waste Management anticipates all routes, including residential, commercial and roll-off to be recovered by the end of the week, safety and road conditions permitting.

“Waste Management thanks our valued customers for their patience and cooperation during this weather event,” said Katie Cowen, senior district manager, Waste Management Gulf Coast.

### **ABOUT WASTE MANAGEMENT**

Waste Management, based in Houston, Texas, is the leading provider of comprehensive waste management services in North America. Through its subsidiaries, the company provides collection, transfer, recycling and resource recovery, and disposal services. It is also a leading developer, operator and owner of landfill gas-to-energy facilities in the United States. The company’s customers include residential, commercial, industrial, and municipal customers throughout North America.
